Columbia, SC 29211

Re: Net Metering

Dear Mr. Terreni:

I am writing to urge you to make net metering mandatory in the State of South Carolina. Net metering will encourage businesses and citizens to install solar or wind power devices, thus helping to lessen global warming. It will also encourage generation of excess electric power which can be used by the electric grids wherever needed. Our current methods of electric generation will not fulfill the needs of the country in the long term, and net metering is one way to help solve this problem. Most other states in the United States are already doing this. Let's not keep South Carolina at the bottom of the heap. Thank you.

Sincerely yours,

Janet C. Ciegler

(Mrs.) Janet C. Ciegler
